*Historic circa-1929 mansion with Al Capone history  
is a quaint setting for gourmet American plates.*

The 1929 mansion with original hardwood flooring and authentic light fixtures, presumably financed by Al Capone, was put on the National Register of Historic Places in December of 1997. The three-story compound once had escape hatches on the roof and underground tunnels in the basement used by Capone for the transferring of liquor in the twenties and early thirties. Local legend reveals tales of Capone and John Dillinger lounging outside on the mountain stone patio having drinks and playing numerous hands of cards. This place is as overwhelming a restaurant as Al Capone was to the mob, but it's the atmosphere, the delectable creations of the talented chef's, charismatic and courteous service, that create an incredible "getaway" on the mountain.

## Sewanee Natural Bridge

11745 U.S. Highway 41 in Monteagle

Natural Bridge is a three-acre natural area located in Franklin County. Sewanee Natural Bridge is a 25 feet high natural sandstone arch with a span of 50 feet that provides a scenic overlook of Lost Cove. There is a wet weather spring associated with a rock house located behind the natural bridge. The spring probably contributed to the formation of the arch. Lost Cove is a large karst formation on the dissected section of the Cumberland Plateau.

It is essentially a giant sinkhole. Lost Cove is 3,000 acres of habitat-rich land that is owned by Sewanee: The University of the South and contains portions of Lost and Champion Coves adjacent to Sewanee. This land is significant for its undisturbed natural habitat, Lost Creek and its drainages, and local history. This conservation success was a rare opportunity to link large protected tracts including the 8,000 acre Franklin State Forest, two State Natural Areas, Buggy Top Cave, and Natural Bridge, creating and conserving a large-scale wildlife corridor. It's truly a site to be seen.

\*\*\*CAUTION: Please be careful. This is a natural bridge so there are no railings. This can be dangerous for pups and kiddos. Please keep an eye on them at all times \*\*\*
